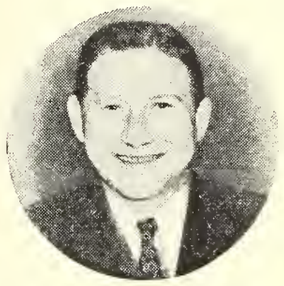
"The Coin Machines Merry-Go-Round"

By Bill Gersh



CANADIAN MANUFACTURE(?)

A wave of wonderment is sweeping the country since the notification that Canada is now once again allowing the manufacture of coin operated machines. A great many operators, jobbers and distributors, much to the distress of some leaders, believe that machines will soon be shipped down to the U.S. from Canada on which machines there is no embargo nor export duty as there is on shipments of all coin operated machines into Canada. In fact, no finished products of any kind are permitted to be imported into Canada from the U. S.

The effect of this announcement is already noted in the stalled sales and dropping prices of certain equipment. Tho the Canadian government does not specify whether it will also release the raw materials necessary for the manufacture of such equipment as coin operated machines, there is no doubt that materials will somehow be obtained even if extremely high prices are bid for these, and machines will be manufactured.

Some are also of the belief that certain manufacturers will make their way into Canada to take advantage of this situation and connect with Canadian coinmen to get under way on a manufacturing set-up. Tho it seems impracticable to the average man in this business to see machines coming in from Canada, where in the past this British Dominion was importing all of its coin operated equipment from this nation, it is still completely possible that machines will be shipped down from Canada and therefore there is no doubt that sales will be made.

The problem that confronts the trade is whether, if Canadian machine shipments do come down to the U. S., will this considerably affect the domestic price situation on equipment. There is no doubt that if new machines come thru they will be much higher priced than prior to the war. Such being the case sales will be somewhat withheld. The average American coinman is most completely sold on the products of his own American manufacturers. Tho the quality and quantity of Canadian machines in the past were not all that could be hoped for, with the demand for equipment what it is here and in Canada as well, there is no doubt that if the products produced will stand up mechanically and have some sort of modern attractiveness, sales will be made.

Many American manufacturers are naturally gritting their teeth over this news. It is somewhat upsetting to the average manufacturer to think that a neighboring nation, formerly never known as a producer of coin operated equipment, can now get the jump on him and yet he has been given no knowledge at all as to when he may even dream about manufacturing his own products. (Personally, we have complete faith in the ingenuity and speed production of our own American coin machines manufacturers and we are of the belief that come what may our own manufactories will outrace, outshine and outbuild and outsell anything that may come in here from Canada, or anywhere else for that matter.)

Rumors have also started to circulate that some American manufacturers may send part of their staffs up to Canada to get started on some sort of production. It is the belief of The Cash Box that rumors mean little or nothing at all until official announcements are made by the manufacturers themselves under their own signatures. The Cash Box suggests that its subscribers not take credence in any such rumors until they are officially made public.

Whatever will come to pass in the next few weeks there is naturally a great deal of interest in what is going to come about in the Canadian market due to this ruling which allows for the manufacture of coin operated equipment. Let's not as yet get excited. Let's wait until we hear further from the Canadian market. At the present time Canada's coinmen are getting prices three and four and more times that being obtained in this country for the same merchandise. Should new games enter the picture it will prove much more profitable to first cover the Canadian market, even tho this may somewhat affect the first post-war sales that could have been made by the American manufactures there. Furthermore there is no doubt that the Canadians, without the help of the manufacturers from this country, will never completely capture the market because of the quality required as well as the quantity demanded.

"The Coin Machines Merry-Go-Round"

It is extremely interesting to note at this time the prices at present being quoted in Canada for coin operated equipment. In the music field, a phono featuring a Singing Towers mechanism in a Wurlitzer 750 cabinet is quoted at $650.00; Wurlitzer 412 $175.00; Wurlitzer 616- $275.00; Wurlitzer 780 $850.00; Mills Throne of Music $400.00; Wurlitzer 61 Counter Model $225.00; Mills Empress $525.00; Wurlitzer 500 $500.00; Wurlitzer 24 $325.00; Mills Zephyr $225.00; Rockola 12 Record Counter Model $175.00;

Pin games are quoted as follows: Bally Beauty $150.00; Brite Spot $175.00; Score Card $200.00; Spottem $90.00; Fox Hunt $250.00; Chubbie $75.00; Chevron $110.00; Stop & Go $125.00; Fantasy $110.00; Super Six $150.00; Flicker $275.00; White Sails $200.00; Mills 1-2-3 FP $200.00; Bally's Fleet $250.00; Etc.

Slots are quoted as follows: Mills Cherry, 3/10 PO, Hand Load $300.00; Mills Chrome $350.00; Mills Blue Fronts, refinished, $175.00; Extraordinary and Futurity at $150.00; Skyscrapers, 3/5 PO, H.L., $150.00; Jennings Chief $125.00; Jennings Century $75.00; Watling S.J.P. $50.00; Watling T.J.P. $85.00; Etc.

One-Balls range as follows: Blue Grass FP $550.00; Record Time FP $500.00; Bally Victory FP $250.00; Dark Horse FP $500.00; Sport Special FP $425.00; Track Record FP $350.00; Preakness FP $150.00; Turf King PO $500.00; Fairgrounds PO $200.00; Hawthorne PO $175.00; Jockey Club PO $550.00; Thistledown PO $375.00; Sport Page PO $375.00.

Arcade equipment prices are also interesting: Keeney Anti-Aircrafts are quoted at $125.00; Evans Ten Strikes $175.00; Seeburg Chicken Sam $250.00; Bally Rapid Fire $375.00; Etc.

The above should not be construed as a complete listing. These machines have been picked at random as published by the leading Canadian jobbers and distributors, December, 1943. There is no OPA in Canada.

TAXES

For sometime now we have been presenting facts and figures regarding the tax problem. Taxes seem to be imposed upon this industry by some sort of mysterious hocus-pocus. As one city suddenly becomes coin machines tax conscious, nearby cities follow. And very soon entire territories find themselves taxed without rhyme or reason, usually to a very despairing point. This has been the case time and time again in this industry for many past years.

That is why The Cash Box so strongly urged the creation of a National Tax Council. Such a council would prove invaluable. It would be capable of presenting statistics, data, previous rulings, former decisions and complete case histories which would benefit any territory faced with a new and sudden tax problem. There is now no one person nor agency nor firm in this industry with any such complete information to help benefit any territory anywhere in the nation in time of such stress.

In addition to the creation of a National Tax Council composed of members of the 48 states at a national meet, The Cash Box has also urged a national meeting of arcade owners so as to come to some decision regarding the inequitable Federal taxation with which the arcades are faced. The arcades will sooner or later be forced to come together to cure this problem. It is becoming more irritating to a great many of them each passing month. When the Summer season of 1944 approaches, the seasonal arcades, which only operate during the few short Summer months, will again be faced with the purchasing of full year licenses for their machines. This is a complete waste of about 9 month's tax money to them. The arcade owners are therefore once again urged to come together in national conclave for their own good benefit. This is the time to set up the necessary committee for curing this inequitable tax. The Cash Box is fully convinced that this situation can be completely cured.

The average man in this industry must realize that any taxes placed on his business during this war period, whether local or Federal, will most definitely not be removed when the war is over. Economists report that the huge national, state, county and city debts, which are in most cases assuming astronomical proportions, will take more than two or three lifetimes to clear away. It is therefore imperative that the members of this industry come together now to plan what to do about taxation as it once again rears itself prominently in this industry.

One well known war center city in Ohio finds its music men stunned because a $50.00 per year license is being proposed for each juke box by its city council. These operators are at a loss on how to proceed against this bill. They have been rushing airmail letters thruout the country to friends and publications asking for complete data of former cases which could be presented before their city council in an attempt to cut down or even halt this tax. Here again is an example which requires the intelligent offices of a Tax Council. Such a unit could instantly supply the necessary data to these men. Experienced legal men would also be made available. In fact all effort would be completely synchronized to help offset such a confiscatory tax bill.

Once again The Cash Box dares courageously to come to the front, as it did in the OPA matter, to help this industry to help itself. The Cash Box is willing to again call a meeting which will bring together the arcade owners as well as to help bring into being a National Tax Council. By such action this industry will eliminate one of the most gigantic obstacles in its path for the coming great post-war era.

PRICES *"The Coin Machines Merry-Go-Round"*

For the past few weeks prices of most equipment have suddenly demonstrated what might be called - a case of the jitters. This is somewhat attributed to the press publicity regarding the possible return to partial domestic production. The fact that Canada has allowed return to production of coin machines has also affected price atability.

There has been, these past few weeks, more sales of complete routes and arcades than in many past months. Most of the routes were sold because of lack of sufficient help, as well as parts and supplies to maintain them on a profit basis. Many are also desirous of taking the huge profits which have been offered for complete routes and arcades. These men are content to continue for the duration with smaller and more highly concentrated operations.

Because of this jitteriness of prices there is a belief current at this time, and becoming more pronounced right along, that a complete price reversal will be noted sometime during this year.

INGENUITY

Many times in the past this word has appeared as a title on items in this column. It is a fact there has been more ingenuity demonstrated by the cointrade as a whole during this war than anyone ever expected would be the case. The members of this industry have a great deal of which to be proud. The ingenuity which they have displayed has not only continued them in business thru the most trying period in all American business history, but they have actually gained ground along the road of recognition as well as strengthened themselves financially.

Arcade men have been among the first to demonstrate ingenuity. They have been famous for this for many years. It is a well known fact in the trade that arcade owners have been able to continue operating the same equipment by ingenious refurbishing for periods ranging up to 10 years and even longer. The changes which they have made, on their own and of their own accord, in present popular equipment, such as guns, bowling alleys, roll down games, pins, etc., is truly praiseworthy.

Many enter arcades and do not even recognize some of the older guns, so ingenious are the changes which have been made. And remember that these are changes made right in the arcade owner's back room, using an air brush and a few parts from castoff equipment. Of course the revampers of arcade equipment at the present time should not be overlooked. They, too, have accomplished marvelous jobs. The guns and other equipment which they have re-created have won them much praise from all the trade.

One outstanding example of ingenuity was witnessed in one of Jersey's smaller towns. Here an operator has created a completely selective musical-movie machine eliminating much of the mechanism that had formerly given trouble to the operators of this equipment. He has even combined this machine with television so that when important sporting events are being televized these, too, can be seen by the insertion of a coin into a separate slot. This musical movie-machine features complete selectivity on an entirely new basis. Creating such an engineering achievement in a small town without the elaborate facilities of the average coin machines manufacturer highly bespeaks the ingenuity of the members of this industry.

Also noteworthy in this regard are the great many simplification methods which have come into being during this war period. So many of these are now available to the trade that even the most non-mechanically minded coinman has been able to keep his equipment in operation by using these ideas as they have appeared. Tube replacements, mechanism changes, etc., etc., have come into prominence everywhere.

The revamping of older pin games is especially praiseworthy. These have today become recognized as among the staples of this industry. The Cash Box prides itself in being among the very first to come to the fore for these machines and pointing out at that time they would rise to a commanding position in the trade. And also that they would eventually be responsible for keeping many important locations active during the war.

The continued great ingenuity shown by the members of this industry is sufficient proof in itself that this field will continue on and remain important in the economical entertainment and merchandising picture of this nation.

ABOUT CIRCULATION

For a great many years the bugaboo about circulation has been raised by the large publications in the mass field and used as a hammer to force in advertisers, whether half or more than ninety percent of their circulation meant anything at all to the advertiser. The Cash Box prides itself in its great growth which is apparent to all in this industry. The Cash Box has concentrated on this sound, logical, old advertiser's adage, "I'd rather advertise in a publication with ten buyers than with ten million circulation." A letter now going forth from The Cash Box reads in part, "The Cash Box today has the finest type circulation in this industry. Here's proof for you. Make a list of the people you regard as tops in this industry, large or small. We don't care if your list contains 10 or 100 or more. If at least 90% of that list are not subscribers to The Cash Box - we'll give you a free 13 weeks' subscription."

Odd Coins

A (1944) Copyrighted Feature of "The Cash Box", 381 Fourth Ave., New York

After the usual holiday lull, trading has increased tremendously the past weeks. Buying and selling is being done on a larger scale now than for quite some time. Coinmen are not holding on to equipment with the purpose of seeking higher prices. With the concentration of operations to the most profitable and conveniently serviced routes a certain amount of equipment has been placed on the market. These machines are being distributed throughout the country where they are needed. We can look forward to a continuation of a lively trading market, due mostly as Bill Gersh pointed out last week, to the uncertain length of the war, and whether the manufacturers will be ready to produce new equipment without delay.

NOW FLYING OVER HOME OF FAMOUS *Bally* GAMES AND VENDERS

Production at the "Bally" plant is one hundred per cent for Uncle Sam. Night and day, seven days a week, the "Bally" organization is building battle equipment for the Army and the Navy, proving that the skill developed in peace-time design and construction of coin-operated games and venders is a valuable asset to America in time of war.

Plans of the "Bally" organization call for quick production of new games and venders immediately after victory . . . and for exploitation of the marvelous new electronic principles developed by war-time technology. In the post-war era, as in the past, "you can bank on Bally" for the newest in money-making equipment.

Lion Manufacturing Corporation, manufacturers of "Bally" games and venders, distributed by Bally Manufacturing Company, 2640 Belmont Avenue, Chicago, 18, Illinois.

NOTICE

MARCH, 1942, MARKET PRICES APPEARED IN THE SEPTEMBER 7, 1943 ISSUE. PRICES LISTED ARE CURRENT WEEK'S MARKET PRICES.

IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

6—Means no prices quoted for this machine for past two weeks.
7—Means no prices quoted for this machine for past three weeks.
8—Means no prices quoted for this machine for past four weeks or longer.
